

DOG WALK • 2012 ARTHRITIS WALK

MAY 5TH, 2012 • SUGARHOUSE PARK

WALK | ARTHRITIS FOUNDATION

Did you know? Dogs get arthritis, too!

Canine arthritis affects dogs of any age, breed or sex. Studies have shown that as many as **1 in 5 adult dogs have arthritis**. Although there is no cure, chronic arthritis pain can be managed with the help of diet, exercise, surgery and proper medication.

Did you know...

that a daily walk can help control and prevent arthritis? That's right, regular exercise helps maintain joint health and improves overall health for **both you and your pet**.

Join us at Sugarhouse Park on May 5th from 9am to 12pm for the Arthritis Walk and Dog Walk to support the Let's Move Together campaign for overall good health and empowerment gained through every day movement.

Dog Walk activities will include: Ask a Vet booth, pet store vendors with treats and giveaways, doggie bandanas, a splashing contest, and more!

Free registration for you and your pooch at
www.slcarthritiswalk.org!

This Arthritis Walk® event welcomes dogs.
Please be a responsible owner and keep pets in control and leashed at all times.
