

Pierre Bernard, D.O.
2014 Jingle Bell Run/Walk
Medical Honree
Ames, IA

Dr. Pierre Bernard joined McFarland in Webster City in 1998. He graduated from Des Moines Osteopathic School of Medicine in 1995. He then completed his family medicine residency at Broadlawns Medical Center in Des Moines. He enjoys the outdoors, playing tennis and spending time with his family.

Physicians like Dr. Bernard use a variety of methods to diagnose arthritis in their patients. An accurate diagnosis precedes appropriate treatment of arthritis. With over 100 types of arthritis, early symptoms can overlap and diagnosis can be difficult.

When diagnosing, your doctor will look for very specific signs, symptoms and disease characteristics. Your doctor will also consider your medical history, physical examination, blood tests and imaging. The Arthritis Foundation appreciates the commitment of Dr. Bernard in diagnosing and treating patients with arthritis.

We are thrilled to recognize Dr. Pierre Bernard for his outstanding service to the community, and we take great pride in having him as our 2014 Jingle Bell Run/Walk Medical Honoree.

About the Arthritis Foundation

The Arthritis Foundation (www.arthritis.org) is committed to raising awareness and reducing the unacceptable impact of arthritis, which strikes one in every five adults and 300,000 children, and is the nation's leading cause of disability. To conquer this painful, debilitating disease, we support education, research, advocacy and other vital programs and services.
