

# WALK to CURE ARTHRITIS<sup>SM</sup>

Denver Walk  
to Cure Arthritis

Sunday May 15, 2016

Washington Park

9:00 am: Day of registration opens

11:00 am: Walk Begins

*"I'm participating in the 2016 Denver Walk to Cure Arthritis to raise awareness about the number one cause of disability in the United States, the resources available through the Arthritis Foundation, and to fight for a cure."*

– Jackie Haney

## 2016 Corporate Chair Jackie Haney

Determination, knowledge and innovation are hallmarks of Jackie Haney's portfolio as managing partner of Cobalt Oil & Gas, LLC, and she brings those attributes to the table as Arthritis Foundation-Colorado's 2016 Walk to Cure Arthritis Corporate Chair.

A graduate in Chemical Engineering from the prestigious Colorado School of Mines, Jackie, 36, has already had experience in leadership with ExxonMobil, Shell and Venoco in the oil and gas industry.

In her current position she is involved in oil and gas development in the onshore United States, with a background in engineering, project management, operations, acquisitions and divestitures in energy. She is the key contributor to the company's strategic plan, oversight of decisions and the resolve to grow a reputable company.

Indicative of her commitment to health and fitness was her tenure from 1999-2001 as co-captain of the Colorado School of Mines women's varsity swim team.

"I'm working with the Arthritis Foundation to steward and share their mission of being a Champion of Yes," Haney said. "Many of us either ourselves struggle with a debilitating form of arthritis or have a loved one who is fighting this battle alone. I'm participating in the 2016 Denver Walk to Cure Arthritis to raise awareness about the number one cause of disability in the United States, the resources available through the Arthritis Foundation, and to fight for a cure."
