

CAMP JOINT ADVENTURES
CAMPER MEDICATION INFORMATION
PLEASE READ BEFORE FILLING OUT MEDICATION FORM

Medication Form Instructions:

- 1) Please note that camp is 4 days long. Please send enough medication for 5 days. This will provide extra medicine in case some pills are dropped or lost. Remember to include any "as needed" medications including over the counter medications such as antacids if your child uses them.
- 2) **All medicines must be sent to camp in their original pharmacy containers with current dosing information.** In order to protect your child, we cannot give your child unlabeled, unidentified medications. **Please make sure all bottles are labeled with the camper's name!**

- 3) **Note: Please bring a small box or plastic container to hold your child's medication.**

(Please label the box with their name)

- 4) When you bring your child to camp check in, we will collect the medications and you will have an opportunity to speak with the camp medical director and staff. Medications will be kept by the camp staff in Camp Joint Adventure's very own med shed and dispensed at appropriate times by the staff. We will review your child's medication schedule at camp check-in.

(See Camper Medication Form)

- 5) If any medication changes occur between the time of submission of this form and the date camp begins, a written notification by your physician of the changes must be provided to Brooke to update your camper's form. *(If the changes occur very close to camp please provide the notification to the camp staff at check-in.)*
