100 Ballpark Way
Arlington, TX

8:30 am registration, 10 am Walk

*"I will not let Rheumatoid Arthritis
define me. I may have to do things
differently, but I will get it done."*

– Colleen

2016 Adult Honoree Colleen Neumayer

Colleen was diagnosed December 31, 2001 with rheumatoid arthritis. She considers herself one of the lucky ones since she was diagnosed within three months of experiencing major symptoms.

As a mother and wife in Dallas, Texas, Colleen works at Aetna and enjoys spending time with family, traveling and working out, especially running. She became involved with the Arthritis Foundation to help newly diagnosed people and to connect with others living with RA. She has participated in the RA connections meetings and seminars provided by the Arthritis Foundation.

Colleen participates in the Walk to Cure Arthritis because she wants to raise awareness of this disease and she is optimistic that a cure will be found in her lifetime.
