

## #1 Facebook Fundraising Tool: Walk to Cure Arthritis Facebook App

This state of the art app was custom made for Walk to Cure Arthritis. It is the **ONLY** Facebook app that credits donations you receive to **your** walk fundraising page.

### Features:

- Schedule posts. Set it and forget it!
- Tag friends and thank donors
- Update your profile and cover photos with walk images
- Make a self-donation

**To install the app**, log in to your Walk to Cure Arthritis participant center and click the Facebook app link.

### Go Social & Go Mobile!

Install the **Facebook app** to start fundraising on Facebook within seconds! Manage and share your Walk to Cure Arthritis experience on the go with our app for [iPhone/iPad](#) and [Android mobile/tablet](#).

## IMPORTANT: DO NOT ADD A DONATE BUTTON WHEN FACEBOOK ASKS

When sharing your fundraising efforts on Facebook, you will be asked by Facebook to "Add a Donate Button" or "Create a fundraiser" after you've shared your post.

**DO NOT add this Facebook button to your post. Click on the "x" to remove**

**Why not?** Facebook sends the Arthritis Foundation one donation for all fundraising and cannot provide us with the donation details, so donations raised through the "Add a Donate Button" cannot be credited towards your fundraising goal.

**Fundraise on the go with the mobile app!** Another easy way to post to social media is to download the 2018 Walk to Cure Arthritis mobile app. Search for Walk to Cure Arthritis in the App Store and Google Play.

**Click the buttons below to use the Facebook app or download the mobile apps!**
