WHAT
WE
DO.

We are the Champion of Yes.

Our goal is simple: to conquer arthritis, improve patient outcomes, cultivate community connections and arm patients and families with the most up-to-date resources to take control of their disease.

- › The Arthritis Foundation boldly leads the way of fighting against Juvenile Arthritis and childhood rheumatic diseases. We understand the unique needs and challenge of families. Through events like this we are able to provide scholarships for Virginia families to attend our National Juvenile Arthritis Conferences
- › Virginia is home to its very own Juvenile Arthritis camp in Charlottesville. In partnership with Camp Holiday Trails we are able to give children with juvenile arthritis and childhood rheumatic diseases the opportunity to take control of their disease, increase their independence and self-confidence as well as build life-long friendships and memories.
- › Send a kid to camp. Cocktails & Cuisine - Party on the Lawn will provide a unique camp experience to children with arthritis in Central Virginia. Campers gain an understanding of their own Juvenile Arthritis to increase their independence and self-confidence.
