Click on your state below to access the Marketplace Checklist and details on your Marketplace plan options

Health Insurance Marketplace Checklist

Aside from the web-based tool, we have developed a sharable PDF-based version of the Marketplace checklist. This asset will allow the checklist to be able to be printed, downloaded, emailed, and shared through social media channels. As the PDF toolkit is intended to be shared, it will not have the same context as the background resources that the full AF Marketplace Toolkit. Based on this, the PDF checklist includes additional explanatory information to provide the appropriate context for the questions that individuals need to consider when making their healthcare coverage and benefits decisions.

Introduction

When thinking about your choices for health insurance coverage in the Marketplace, there are many things to think over. Individuals with arthritis should think about more than just a plan's monthly premium. This checklist will help you organize coverage and cost factors when choosing a health insurance plan in the Marketplace.

- Do you need coverage for yourself or for a family? You may need a different plan than your family members.
- Do you think you will need help paying for the costs of a Marketplace plan? If so, have you applied for subsidies?
- What "metal level" is the plan you are thinking about? Does it meet your needs and your budget?

Physician & Hospital Services

Capitol Hill Update

On the phone:

Eric Gascho, Director of Government Affairs,
National Health Council

October Ambassador Assignment

- Review Ambassador Activity Report on Current Assignment Website:
www.arthritis.org/ambassador_assignment.php
- Update any errors by reporting to arthritis.org/report.
- To correct errors, please share with me any records, notes, or correspondence validating that you've completed the assignment.
- Also share any additional work you've done! We want to know about it!
