Taking Root

Lisa Diven

“Biologists often talk about the "ecology" of an organism: the tallest oak in the forest is the tallest not just because it grew from the hardiest acorn; it is the tallest also because no other trees blocked its sunlight, the soil around it was deep and rich, no rabbit chewed through its bark as a sapling, and no lumberjack cut it down before it matured.”

True Change Starts With Us

Using the power of many can give you the strength and confidence to help yourself, and in turn, help others. That's when true change happens – true change that is guided by the Arthritis Foundation's insights-driven approach.

Your participation allows us to collect important data within the community, which enables us to fight for you, your family and the vast medical community who are battling arthritis together.
