

Louisiana: Why Arthritis Matters

Arthritis affects **27.8%** of the population in Louisiana. That's **989,000** adults living with doctor-diagnosed arthritis in the state.

- There are over **54 Million** American adults with doctor diagnosed arthritis in the U.S.
- 1 in 3** veterans has arthritis, which accounts for **13.7%** of the people in Louisiana living with arthritis
- There are approximately **300,000 kids** with arthritis in the U.S. but only about **390 pediatric rheumatologists**. That's about 700 kids for each doctor.

Over 24 million Americans experience activity limitations due to their arthritis.

- 533,000** adults in Louisiana have activity limitations caused by arthritis
- Among all adults in Louisiana with arthritis, **44.6%** have work limitations
- Arthritis in the U.S. has an economic burden of **\$304 billion** – made up of medical expenses and lost wages

Adults with arthritis often have one or more chronic conditions.

- Mental Health:** Anxiety and depression affect **1/3** of U.S. adults with arthritis 45 years of age or older
- Diabetes:** **57.3%** of adults in LA with diabetes also have arthritis
- Heart Disease:** **57.5%** of adults in LA with heart disease also have arthritis
- Obesity:** **35.2%** of adults in LA who are obese also have arthritis

You can make a difference by advocating for state and federal legislation that will help people with arthritis in Louisiana. Legislative priorities for 2019 include:

- Market Stabilization:** State strategies to make health insurance more affordable and adequate on the individual exchange
- Congressional Arthritis Caucus:** Grows the bipartisan Congressional Arthritis Caucus, a forum to educate Members of Congress about the most pressing issues facing people with arthritis
