

# Idaho: Why Arthritis Matters

Arthritis affects **24%** of the population in Idaho. That's **309,000** adults living with doctor-diagnosed arthritis in the state.

- There are over **54 Million** American adults with doctor diagnosed arthritis in the U.S.
- 1 in 3** veterans has arthritis, which accounts for **18.7%** of the people in Idaho living with arthritis
- There are approximately **300,000 kids** with arthritis in the U.S. but only about **390 pediatric rheumatologists**. That's about 700 kids for each doctor.

## Over 24 million Americans experience activity limitations due to their arthritis.

- 148,000** adults in Idaho have activity limitations caused by arthritis
- Among all adults in Idaho with arthritis, **41.3%** have work limitations
- Arthritis in the U.S. has an economic burden of **\$304 billion** – made up of medical expenses and lost wages

## Adults with arthritis often have one or more chronic conditions.

- Mental Health:** Anxiety and depression affect **1/3** of U.S. adults with arthritis 45 years of age or older
- Diabetes:** **55.2%** of adults in ID with diabetes also have arthritis
- Heart Disease:** **54.6%** of adults in ID with heart disease also have arthritis
- Obesity:** **31.9%** of adults in ID who are obese also have arthritis

## You can make a difference by advocating for state and federal legislation that will help people with arthritis in Idaho. Legislative priorities for 2019 include:

- Market Stabilization:** State strategies to make health insurance more affordable and adequate on the individual exchange
- Workforce:** Legislation that addresses the pediatric rheumatology workforce shortage through federal loan repayment programs
