

Hawaii: Why Arthritis Matters

Arthritis affects **21.9%** of the population in Hawaii. That's **211,000** adults living with doctor-diagnosed arthritis in the state.

- There are over **54 Million** American adults with doctor diagnosed arthritis in the U.S.
- 1 in 3** veterans has arthritis, which accounts for **17.1%** of the people in Hawaii living with arthritis
- There are approximately **300,000 kids** with arthritis in the U.S. but only about **390 pediatric rheumatologists**. That's about 700 kids for each doctor.

Over 24 million Americans experience activity limitations due to their arthritis.

- 89,000** adults in Hawaii have activity limitations caused by arthritis
- Among all adults in Hawaii with arthritis, **37.5%** have work limitations
- Arthritis in the U.S. has an economic burden of **\$304 billion** – made up of medical expenses and lost wages

Adults with arthritis often have one or more chronic conditions.

- Mental Health:** Anxiety and depression affect **1/3** of U.S. adults with arthritis 45 years of age or older
- Diabetes:** **43.3%** of adults in HI with diabetes also have arthritis
- Heart Disease:** **52.9%** of adults in HI with heart disease also have arthritis
- Obesity:** **28.7%** of adults in HI who are obese also have arthritis

You can make a difference by advocating for state and federal legislation that will help people with arthritis in Hawaii. Legislative priorities for 2019 include:

- Step Therapy:** Legislation that addresses burdensome use of step therapy, or “fail first”, which can restrict access to needed therapies
- Congressional Arthritis Caucus:** Grows the bipartisan Congressional Arthritis Caucus, a forum to educate Members of Congress about the most pressing issues facing people with arthritis

Contact your local Arthritis Foundation [State Director of Advocacy & Access](#) to learn more.
