

## 2026 JAAM Partner Toolkit – Social Media Copy

### Social Post 1

Kids get arthritis, too — yet it's often misunderstood as an adult disease, leaving kids and their families feeling unseen. ❤️

This Juvenile Arthritis Awareness Month, we're standing with the Arthritis Foundation and close to 300,000 kids living with diagnosed arthritis and related rheumatic conditions.

Join us in raising awareness, supporting families and helping ensure every child with juvenile arthritis has the chance to live a full, active life. Together, we can make a difference.

### Social Post 2

Kids get arthritis, too — and they deserve to be seen, supported and celebrated. ❤️

This Juvenile Arthritis Awareness Month, we're proud to stand with the Arthritis Foundation and the families, caregivers and advocates working every day to make life better for kids with juvenile arthritis.

Help us spread awareness, share resources and be part of a community that shows kids with juvenile arthritis they're never alone.
