

Nevada: Why Arthritis Matters

Arthritis affects **23.7%** of the population in Nevada. That's **477,000** adults living with doctor-diagnosed arthritis in the state.

- There are over **54 Million** American adults with doctor diagnosed arthritis in the U.S.
- 1 in 3** veterans has arthritis, which accounts for **18.1%** of the people in Nevada living with arthritis
- There are approximately **300,000 kids** with arthritis in the U.S. but only about **390 pediatric rheumatologists**. That's about 700 kids for each doctor.

Over 24 million Americans experience activity limitations due to their arthritis.

- 232,000** adults in Nevada have activity limitations caused by arthritis
- Among all adults in Nevada with arthritis, **47.3%** have work limitations
- Arthritis in the U.S. has an economic burden of **\$304 billion** – made up of medical expenses and lost wages

Adults with arthritis often have one or more chronic conditions.

- Mental Health:** Anxiety and depression affect **1/3** of U.S. adults with arthritis 45 years of age or older
- Diabetes:** **49.3%** of adults in NV with diabetes also have arthritis
- Heart Disease:** **54%** of adults in NV with heart disease also have arthritis
- Obesity:** **34.1%** of adults in NV who are obese also have arthritis

You can make a difference by advocating for state and federal legislation that will help people with arthritis in Nevada. Legislative priorities for 2019 include:

- Out-of-Pocket Cost Limits:** Legislation that tackles high out-of-pocket costs for specialty medications
- Market Stabilization:** State strategies to make health insurance more affordable and adequate on the individual exchange
