

## Post #1

July is Juvenile Arthritis Awareness Month — and we're proud to stand with the @ArthritisFoundation to raise awareness that Kids Get Arthritis, Too.

Even infants can be diagnosed with arthritis, and the physical and emotional impact can last a lifetime. Together, we can help ensure no child faces JA alone.

## Post #2

Juvenile arthritis impacts hundreds of thousands of kids in the U.S., often in ways you can't see. This July, we're helping @ArthritisFoundation raise awareness and expand access to support, research and resources for families facing JA.

## Post #3

Behind every diagnosis of juvenile arthritis is a child navigating pain, fatigue and missed milestones — and still finding strength every day.

This July, we're proud to support the @ArthritisFoundation and the incredible kids and families in the JA community.
