

## **The Arthritic Patient:** *Need-to-Know Options for Treatment & Prevention*

***Tuesday, October 22nd***  
***6:00pm-7:30pm***

Dr. Michael C. Durkin, hip and knee orthopaedic surgeon with Hinsdale Orthopaedics, and physical therapy experts from ATI Physical Therapy will discuss the latest treatments and surgical intervention options available for mild to severe arthritis of the knee and hip joints.

They will also provide information and lifestyle options on non-surgical treatments for arthritic joints, including hip and knee preservation. This program is in partnership with the Arthritis Foundation.

**Light refreshments will be served.**

**Please register for this event by calling 1-800-735-0096
